

REGOLARE ARMONIA

 SEEVEN

SeEven non è solo una linea di prodotto, ma è una visione progettuale che espande l'estetica di un infisso per interni alla sua più alta espressione.

Concepito per essere un programma camaleontico, in una porta SeEven profilo, vetro e maniglia sono proposti nella stessa tonalità cromatica. Infissi con anta singola, doppia o pareti modulari rendono armonioso lo spazio all'interno del quale vengono applicate in un continuum espressivo.

SeEven è l'essenza più intima della bellezza stilistica che è dietro la produzione del complemento PORTA.

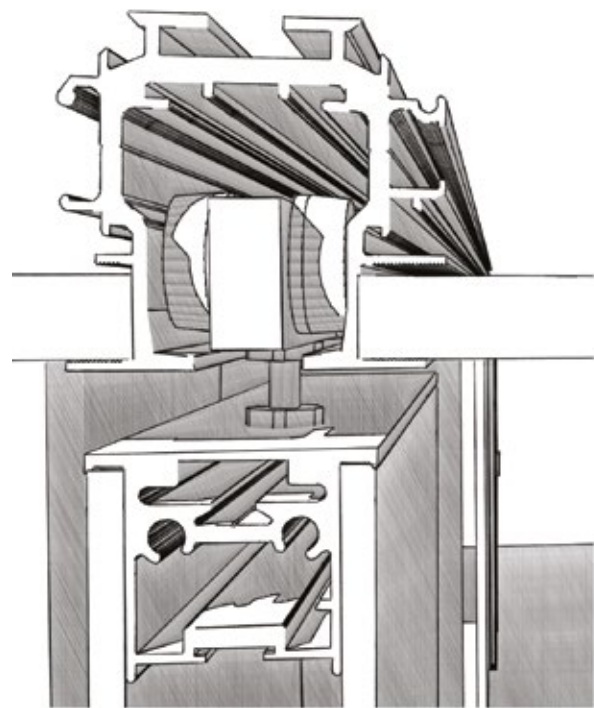

SeEven is not just a simple product line, but a design solution which twists the classic idea of door and brings it to its highest expression. SeEven is designed to be a chameleon system: glass and handle blend together as made of the same colour shade. Single panels, double panels and modular panels that make the space where they are installed elegant and smooth.

SeEven is the true essence of design!
